Make Your Own 3-D Rainbow!

Use this template to make a rainbow with clouds.

Supplies:

Paper
Printer
Crayons or Markers
Scissors
Transparent Tape
Glue Stick
Cotton Balls

Directions:

1. Print the pages and color the rainbow strips and clouds.

2. Cut out the rainbow strips and clouds on black lines.

3. Lay the strips next to each other and place a piece of tape, half on the strip and half off the strip.

4. Tape the side of the rainbow that is still exposed onto one end of one cloud.
Then, bend your strips to create a semicircle shape and tape other side of the rainbow strips to the other cloud.
See example on page 2.

5. Cover the top of your clouds in glue and attach cotton balls.
See example on page 2.

Have Fun!

Make Your Own 3-D Rainbow!

3. Color and cut Rainbow strips.
Lay side-by-side

4. Tape half the rainbow strips to other half of cloud.

5. Glue cotton balls.
